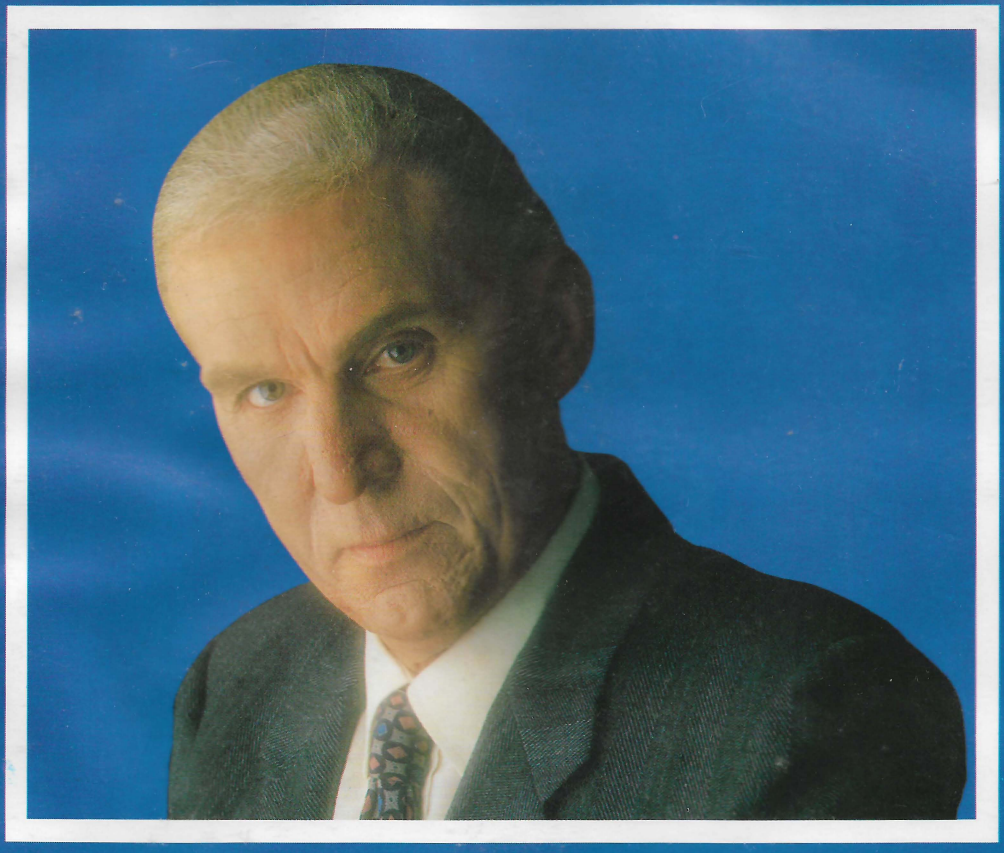
SELF INSTRUCTION AUDIO CASSETTES



Colour Coded Audio Cassettes & Instruction Manual

SOFTWARE MADE SIMPLE

For many years, educators, management and industry have used the method of learning through the spoken word to quickly impart knowledge through the two most important senses, the eyes and ears, our audio visual senses.

Commodore Computer, the international computer sales and manufacturing company with subsidiaries and branches in over 51 countries around the world, has adopted this proven method of learning to help you develop the language and communication skills necessary in this era of computers and software.

These Commodore audio tapes put you in control of your computer, allowing you to:

- choose the speed at which you learn
- choose when you want to learn
- learn at home, the office, anywhere, using headphones.

Commodore's corporate philosophy is simple: providing the most technologically advanced computing power to the largest number of people, using our worldwide resources to provide the best value-for-money possible.
